

FLAYSHER

Based on the last name of two 'loud and proud' Albertan brothers, Flaysher is a high-octane Canadian Country duo with multiple CMAB award nominations. The brothers were a Top 12 finalist in Alberta Music's 2021/2022 PROJECT WILD competition and recently won the 2023 Ranchman's Rising Star competition, earning them a spot on the main stage of Country Thunder Alberta this upcoming August.

Although their new single, "Good For You," has undeniable hometown country tones, Flaysher's identifiable edgy tones are taken to a new level. This translates into their most raw single to date. The song speaks to the stubborn side in all of us - coming to terms with missing an ex but refusing to change who we are to go chase them.

"It's a little more of the rock growl mixed in with classic country music storytelling. The song is introspective while also boldly acknowledging that sometimes a relationship just isn't the right fit."

These two have voices that melt together perfectly. They harmonize only the way family can. - **Front Porch Music**

Their small-town work ethic paired with humility and great talent will set them apart from others. I can guarantee that.
